TO BE ABOUT OUR FATHER'S BUSINESS

ASI SCANDINAVIA
CONVENTION

2018

27 Dec '18 - 1 Jan '19

EKEBYHOLM
SWEDEN

Welcome!

ASI has a prophetic calling and an important role in this earth's history. Did you know that if there were more places like the one that ASI has its roots in (Madison), we would be a spectacle to the world, to angels and to men and carrying the message quickly to every country and soul. (PH 119, p. 2). This is the goal to be reached. Therefore we must not do business as usual, but business UNusual.

We have therefore invited Hyvecamp to be part of this movement 'to see a thriving network of lay-ministries and businesses in Scandinavia that share Christ in the marketplace.' They will tangibly be able to help us with new start up ministries and help existing ones

to rethink their business models.

The program has been carefully put together to 'inspire and equip youth and adults alike to share Christ as laymen and business owners', which is ASI's mission. May the Lord help us to be about our Father's business – It is time!

ASI Scandinavia

Adventist-laymen's Services & Industries

(ASI) is a membership-based organization of Seventh-day Adventist lay people who are enthusiastic about sharing Christ in the marketplace. ASI Scandinavia is part of a worldwide movement, comprised of supporting ministries, aspiring young people, professionals and business owners.

ASI's philosophy promotes a Christ-centered lifestyle, where members seek to experience Christ's love in their own lives and share that love with the people they encounter in their everyday work and activities – hence ASI's motto, *Sharing Christ in the Marketplace*.

ASI history

ASI's history is rooted in Madison College, an Adventist self-supporting institution established in 1904 near Nashville,

Tennessee, USA, by E.A. Sutherland and Percy Magan. As Madison expanded, it began to plant satellite schools and institutions around the country. In 1947, under General Conference guidance, these self-supporting entities formed the Association of Seventh-day Adventist Self-Supporting Institutions, or ASI. At the time, ASI members were educational or health outposts. Over the years however, ASI membership began to include businesses and Adventist entrepreneurs and professionals. Thus, in 1979, to better reflect ASI's diverse membership, the organization's name was changed to Adventist-laymen's Services & Industries.

ASI Scandinavia was established in 2008, and is a member of ASI Europe.

01 Inspire and equip lay people to be active in sharing Christ, focusing on the energy of young people and the entrepreneurship of professionals and business owners.

02 Encourage young people to reach their full potential in God by developing professional skills through missionary and vocational training, and higher education.

03 Stimulate networking and synergy between lay people, ministries and church entities, realizing that this will help maximize the impact of our mission.

04 Motivate members to give their all: time, resources, talents and influence – in total commitment to God and His church.

Workshops - *About our Father's Business in Ministry*

How to do Discipleship in Practice?

Simon Martin

Jesus' life was about creating a disciple-making movement. By His death, He paid the perfect sacrifice for our sins. In His life, he made disciples who could make disciples - thus birthing a movement that is the reason for our existence today. Church leaders and members must consciously make discipleship the core operating system of the church, or the applications will fail. How do we make disciples in our given culture? Did Christ show us what to do? Did He give us a method and a process? How do we develop an intentional process for creating a discipleship movement within our churches? Explore these issues in this practical workshop.

How to Plant a Church?

Simon Martin

This workshop on Church Planting is for anyone who wants to participate in the mission of church planting but does not know how or what is involved. Those who have not heard much about church planting, or have reservations about it, but feel there might be something to it are especially welcome. We will explore the following basic components of church planting: the biblical mandate for planting, the strategic importance of church planting, models of church planting, who should be a church planter, developing a core team, what needs to be done before you plant, when to plant and how to launch & plan.

How To Revive Your Local Church?

Vincent Bujor

The 3rd biggest reason why young people leave the church nowadays is because of a lack of friends and community. Why didn't the early Christian church face this problem? What can I do to revive my local church and invite more people? And what does that have to do with a CARE Group? In two sessions, we will get answers to all these questions and practically experience a CARE Group. Next week, you will be able to go back to your local church and start your own group.

How YOU can Study the Bible with Seekers?

Joakim Hjortland

To give Bible studies is a God-inspired idea, and we know that laymen will play an important role in finishing the work! In this workshop you will get a lot of practical tips on how YOU can get started and study the Bible with seekers. In addition to making an important difference in people's lives, this exciting work will give you much joy and many blessings.

What these two subjects have to do with mental health and emotional intelligence might surprise you. Being mentally strong in these last days will be a key factor for success. God is gracious.
