ASI SCANDINAVIA CONVENTION 2019

Welcome to ASI Scandinavia 2019!

This year ASI will focus on Christ, the Lamb! The theme “follow the Lamb” derives from the interlude to our precious message in the 14th chapter of Revelation. The Three Angels’ messages are part of our mission statement as a world church. It is therefore of utmost importance for us not only to understand what they mean, but also to know how we as a people are to share them with a perishing world.

One practical way to share what the Lamb has done for us through His love, is by

following Him and giving Him our whole lives. The pen of inspiration says, that “[w]e have no time now to give our energies and talents to worldly enterprises. [...] Let every talent be employed in the work of God.” Testimonies vol. 9, 104. To help employ every talent in the work, we as ASI have articulated our vision as follows: ASI’s vision is to see a thriving network of ministries, businesses and laypeople in Scandinavia that share Christ in the marketplace.

Whether you are a layperson or the leader of a ministry or business, we pray you will be more inspired and equipped after this convention to “follow the Lamb” together as a community of faith!

ASI mission projects offering

This year, we are pleased to announce a special offering for ASI Scandinavia members' mission projects. **Up to 100,000 kr. will be going to help fund new aspiring ministry efforts as well as support established projects and organisations.**

The special Sabbath offering this year will go towards project applications for next year. This means that current and new members can apply for funding projects which are to be given at the Convention 2020. More will be announced before the offering.

ASI works because you do

Without volunteers, who give liberally of their time, talents and treasures, it would be impossible for ASI to do its job. Teams of dedicated people volunteer behind the scenes, working diligently in their individual areas of responsibility all year from the very first day to the last, in order to make the Convention happen and ASI work.

If you would like to support the mission of ASI Scandinavia, you can do this through donations or volunteering your time. Visit www.asiscandinavia.org/donate to see how.

Medical missionary work made practical in the context of the Third Angel's message

HEALTH

Alexander Rose Jensen

The Third Angel's message is the final message of warning that will be given to the world. We are told that medical missionary work is the right arm of the gospel, which will open the door for this message to be received. We also know that the Third Angel's message is righteousness by faith in verity. In this workshop you will discover the Biblical basis for how medical missionary work, righteousness by faith and the Third Angel's message are inseparably linked. We will explore what God will do in His people in order for these truths to swell into the loud cry, and what you must do to be a part of it.

Alexander Rose Jensen is living in Esbjerg with his wife Jiska. He has been a professional physician for over three years and strongly believes that the blending of the health work and preaching of the everlasting gospel as described in the Three Angel's messages will kindle a light that will enlighten the whole world.

Know the Lamb's voice in your daily devotionals*

DAILY LIFE

Line Nielsen

To follow the Lamb you need to know His voice. "The sheep hear his voice, and he calls his own sheep by name and leads them out" (John 10:3).

We will talk about how to know His voice in our daily devotionals, how to study and how to listen. We will get the foundation from the Bible: This is what Jesus wants to happen in our time with Him. You will get practical ideas about what you can do at home in your daily time with Jesus.

Line Nielsen is passionate about sharing Christ. She has written *Loved by Him* and *The Truth is Setting You Free*, and has daily devotionals and other materials on www.elsketafham.dk. She loves riding her mountain bike, playing the piano and being together with friends.

***This workshop will be in Danish, but there will also be English translation available on request.**

Everyday witnessing simplified

DAILY LIFE

Kasper Struksnes

God has called us to witness for Him – but how are we to do it in our everyday lives?

How can mission go from merely being a rare activity to an integrated part of our lives as we relate to our classmates, colleagues, neighbours and friends?

In this workshop, we will be looking at Biblical principles that inspire us to witness for Christ without fear. Personal experiences and practical tips, like what questions to ask in order to transition into a spiritual conversation, will also be shared. Come and learn how to encourage those around you to follow the Lamb!

Kasper Struksnes is a Danish medical student and newlywed living in Odense. He is a graduate from the AFCE Europe mission school and has done Bible work in Copenhagen. He loves to share the truths of the Bible through sermons, Bible studies and everyday conversations.

Reaching out to Muslims

DAILY LIFE

Alex Bittencourt Galindo

In this workshop we will present effective ways to connect with Muslims using the common ground we share with them: the Bible and the coming of Jesus Christ. We will see methods of presenting the Bible message. We will talk about the main misconceptions Muslims have of Christians and the Bible, as well as the misconceptions that we as Christians generally have about Muslims. I encourage you to come and learn about this important subject. They are among us and this good message of the Kingdom must reach the whole world before He comes! I look forward to seeing you there.

Alex Bittencourt Galindo is a Brazilian SDA pastor who have been working with Christian-Muslim relations. He has translated and published a book in Brazil on this subject and has preached both in a mosque and in the Adventist Arabic community in Sao Paulo. Personal Bible study

DAILY LIFE

Henrik Jensen

Have you ever felt that the Bible can sometimes be difficult to understand? In this workshop we will explore how we can imitate the studying methods of Christ, the apostles, the reformers and the pioneers which enabled them to unearth and establish those precious Bible truths, which are the pillars of our faith today. We will also look into how new technology can make Bible study easier, deeper and more comprehensive.

Henrik Jensen is currently working as a physician at the eye department in Aalborg, Denmark. In his free time he enjoys reading his Bible, spending time with his wife Maija and being involved with the planning of the annual Danish IMPACT mission week.

Doing courtship God's way

FAMILY

Kasper and Freja Struksnes

The decision of marriage is surely one of the most important decisions in life and carries huge, even eternal, consequences. But how do you find out if God wants you to marry a person or not? What are you to look for in a future spouse? And in this period of consideration, how are you to relate to the other person? In this workshop, both Biblical principles as well as personal experiences will be shared. We will explore the purpose and motivation for marriage, the questions to ask yourself concerning your potential spouse, Bible guidelines on physical contact before marriage and more.

Kasper and Freja Struksnes have been married since August this year. Living in their little home in Odense (Denmark), Freja is studying nursing, and Kasper is studying medicine. They are very grateful to God for His guidance in their journey towards marriage and desire to share the principles they have found in their study of the topic, as well as lessons from their own experience.

Conflict management in the family

FAMILY

Terri and Ernst Zwiker

"Don't miss the blessing of a good conflict!" This is a very true statement that we want to clarify and understand. We should be interested in analysing conflicts and understanding what they are all about. We will talk about the individual participants in a conflict with their respective challenges. These challenges come mostly from inside: from our values, principles, fears and expectations. Once we understand ourselves better (self-competence), we will much better communicate our wishes and limits to our environment (social competence). Because we are living in the end time, the most challenging time in history, learning and practicing these principles is one of the most serious and important tasks we will meet. Good conflict management is definitely a useful tool to have!

Terri and Ernst Zwiker have been married since 1980. Even though they come from different cultures (USA/CH) and totally different family backgrounds, with God's help they have worked through these challenges well enough to become a blessing to each other, their three children (Jenny, Jesse, Jeremy) and others. Because it is their common burden, they write a blog to support the most important relationship model we have in our society: the family.

Biblical principles of sexuality

FAMILY

Jason and Maggi Harral

Married for 14 years, Jason & Maggi know a few things about sex. They've experienced that applying Biblical principles to this part of life can bring great blessings. For part of this workshop men and women will be in separate groups. It is recommended that only those who are married, soon to be married or 20 or older attend this workshop.

Jason runs a floor sanding business and **Maggi** is an occasional teacher and permanent mom. With four lively kids they have plenty to do and like to learn and teach about how Bible principles can be brought into business and everyday life.

Bringing up children in the faith

FAMILY

Daniel & Silvia Pel

Many influences in our world today are counteracting the Biblical worldview which makes it a particular challenge for children to grow up in our time and age. How can we as parents instill faith in our children from the earliest moments of childhood? Discover how you can work together as a family team and stimulate a love for service and mission in your little ones.

Daniel and Silvia Pel have worked together in ministry for 16 years. They are parents to Elias (5) and Enoch (3), and are passionate about working together as a family and reaching out to others with the good news of the gospel.

Facing the end time without fear

PROPHECY

Daniel Pel

We are living in unprecedented times with the signs of Jesus' second coming fulfilling all around us. Bible Prophecy predicts that our planet will go through cataclysmic events before the ultimate deliverance takes place. Discover Biblical keys to survive and thrive through difficulties and trials today, and the days to come. "For God has not given us a spirit of fear, but of power and of love and of a sound mind." (2 Timothy 1:7).

Daniel Pel is a passionate communicator of the Bible. His dynamic and logical way of presenting the scriptures has been an inspiration for many around the world. With an enthusiasm for ministry he works as a pastor, evangelist, and Bible teacher. Daniel lives with his wife and two sons in Norway. He loves spending time with his family in God's creation.

Covenantal revelation: The six angels of chapter 14 and the Davidic covenant

PROPHECY

Joachim Fosse

God has always had a covenantal relationship with his people, throughout the ages, and in the present. The book of Revelation reciprocates with these promises given and expands upon their fulfillment. As important as it is to discern the historical fulfillment of prophecy, it is just as important to appreciate the movements in God's plan and purpose and our role within that purpose. As the prophet said: "When we, as a people, understand what this book means for us, there will be seen among us a great revival." Not all among us will see it, but I hope you and I will.

Joachim Fosse is an engaging young speaker who has given a number of lectures at home and abroad and is an inspiration to many. Formerly a student at Matteson Mission School and Newbold College, he is now the pastor of the Lillehammer Adventist Church.

The Three (or Four) Angels' simple complexity

MORNING WORSHIP
& WORKSHOP (PROPHECY)

Kenneth Jørgensen

In this workshop we will discuss questions like these:

1. Are the Three Angels' messages relevant in the 21st century?
2. What can we do to share them with the world?
3. How shall we present the Three Angels' messages to the world?
4. Do we have to believe the Three Angels' messages to be Seventh-day Adventists?
5. What interpretation of the Three Angels' messages can we trust?

There will, throughout the sessions, be paid special attention to the textual interpretive comprehensiveness of the Three Angels' messages. The workshop will hopefully help the participant to see the exceptional magnitude the messages of Revelation 14 and 18 have in relation to ASI.

Kenneth Jørgensen is from Norway. After completing his studies in theology at Newbold College, he worked ten years for the Adventist church as pastor with a variety of responsibilities. He was ordained to the ministry in 1991 and is currently employed by a supporting ministry called "Bevar SDA" (translated "Preserve SDA"). Kenneth's special interest is in the area of Adventist apologetics, particularly where the apocalyptic vision meets history.

Preparing for the Sunday law (faithful unto death)

PROPHECY

Allan Jensen

In this workshop, we will focus on the spiritual preparation that will enable us to stand faithful today and when the Sunday laws will come. We will also look at some practical skills to learn in order to be among those who will survive the crisis. How to be perfectly united to Christ? How to get rid of our old sinful nature? How to get the power of the cross? How to survive physically when we cannot buy or sell? These are questions we will endeavour to answer from the Bible.

Allan Jensen has studied theology and worked as a pastor in Denmark. Currently he is the leader of a privately-owned printing press, Øko-Tryk, in Denmark.

I will be sharing about daily life and mission in the charity shop, Happy Hand, located in the center of Copenhagen. I work in Happy Hand as the pastor there. I will share how I use conversation and prayer as easy and natural evangelistic tools. To me, evangelism is more about listening than speaking – listening for the Lamb's voice in the situation, and actively listening to and really seeing the person in front of us.

Anette Wulf is the pastor in Happy Hand in Copenhagen. She loves to talk to and pray for people. She has a burning passion to see the lost people meet Christ, as she did herself 20 years ago.

What is the pastor's job description? Some will be shocked to learn that church planting is at the core of their calling. In this workshop, you will find out that our churches' expectations of being pastored is radically unbiblical and is actually stalling the Latter Rain. Hyve workshop track

START-UP

Markus Witte and Jeremy Zwiker

1. How to develop ideas and projects for the Lamb?

Have you ever asked yourself how to use new ideas and opportunities for the advancement of the Lord's business? In this workshop, we will employ ideation techniques to develop new concepts and approaches. We will develop and shape your ideas until they reach a mature level. In addition, you will learn how to present ideas and concepts in a systematic and compelling way.

2. How the Lamb helps us to care for specific target groups

We have been told to focus on various target groups, e.g. caring for those in need or for the upper classes. But do we really know our target groups? How they live, what they need? Do we know their values, convictions, preferences? Have we spoken to anybody in a particular group? – Before developing any services, we need to do a lot of research. This workshop will guide you through the labyrinth of market research and understanding today's society.

3. The Lamb's synergy in business and spirituality'

Have you ever felt that business is business and religion is religion? Ellen White told us that business and religion cannot be divorced, because God has joined them together. In this workshop, we will show practical ways to bring the spiritual world into business and how to use businesses to connect with people we would never reach by other means. We will learn how to employ the Spiritual Journey Canvas as a tool to support missional ventures.

4. Following the Lamb's creative design – Co-create for His business

God has created us in His image, with the power to create. We all share the creative talents our maker has given us. In this workshop, you will have the opportunity to present and pitch your matured ideas to a broader audience. Together we will co-create and develop ways to put your full-grown ideas into practice. In addition, you will have sufficient time to interact, discuss and ask your questions on missional entrepreneurship and the Lamb's business.

Markus Witte is the Co-founder and General Vice President for Hyve International and is excited to support the start of new, innovative, mission minded start-ups.

Jeremy Zwiker is the Vice President for Founders for Hyve International, to help grow the Adventist start-up community.
